ACTIVE

Minimalismo, materia, equilibrio. Active nasce per chi cerca l'autenticità dell'effetto cemento con un linguaggio attuale e progettuale. Le superfici, sobrie ma ricche di sfumature, si adattano con naturalezza a contesti diversi: dal living alla cucina, dal bagno agli spazi commerciali. È una collezione che lavora bene con tutto legno, metallo, pietra, colori pieni perché non impone, ma costruisce l'atmosfera: ordine visivo, profondità e continuità.

Minimalism, texture, balance. Active is designed for those who want the authenticity of a concrete look expressed through a modern, architectural language. Subtle yet rich in tonal variation, its surfaces adapt naturally to different settings from living areas to kitchens, bathrooms, and commercial spaces. The collection pairs effortlessly with wood, metal, stone, and bold colours, because it doesn't overpower: it shapes the mood through visual order, depth, and seamless continuity.

SALE PEPE

Sale Pepe è l'equilibrio perfetto tra luce e carattere: una superficie puntinata e materica, ispirata alle graniglie e alle pietre "pepate", capace di dare movimento senza mai risultare invadente. Il mix di micro-contrasti crea profondità e rende gli ambienti più dinamici, mantenendo un'estetica pulita e contemporanea.
